Regulatory Assurance Statement for all stakeholders

Young Women's Hub confirms that all statutory duties, safeguarding requirements, and regulatory obligations for independent SEND schools are fully met. Our policies, procedures, and governance arrangements are reviewed annually and monitored throughout the year to ensure continued compliance with *Keeping Children Safe in Education*, the Independent School Standards, and all relevant legislation.

We maintain robust safer-recruitment practices, comprehensive staff training, and clear reporting pathways for safeguarding and wellbeing. Our curriculum, risk assessments, health and safety systems, and quality assurance processes are consistently evaluated to ensure they remain effective, trauma-informed, and aligned with regulatory expectations.

The school's leadership and trustees provide strong oversight, ensuring transparency, accountability, and high standards across all areas of provision. We remain fully committed to delivering a safe, stable, and high-quality environment for every student.

Ms Philippa Wall
Head of School
